This volume was conceived following a very successful course on neuroimmu no logy in Bergamo in 2000, and was written mainly by clinicians who are active in the laboratory. It will help to keep practising neurologists and neuroimmuno logists abreast of the most recent developments, and to assess new information more critically. Angela Vincent and Gianvito Martino should be congratulated on master-min ding this timely and practical text. July 2001 J. In this fascinating book, Atwood takes readers on a journey through Iraq, Peru, Hong Kong, and across America, showing how the worldwide antiquities trade is destroying what's left of the ancient sites before archaeologists can reach them, and thus erasing their historical significance. And it is getting worse. The discovery of the legendary Royal Tombs of Sipan in Peru started an epidemic. Grave robbers scouring the countryside for tombs--and finding them. Atwood recounts the incredible story of the biggest piece of gold ever found in the Americas, a 2,000-year-old, three-pound masterpiece that cost one looter his life, sent two smugglers to jail, and wrecked lives from Panama to Pennsylvania. Jaguar XK120,XK140,XK150 Sports Cars-Karl Ludvigsen 2005-11-13 No sports-car introduction in history has had the impact of Jaguar's XK120 in 1948. Thrust into a dreary post-war world was a stunningly gorgeous roadster, its styling inspired by the best pre-war Italian design, powered by a magnificent 3.5-liter in-line six developing 160 horsepower. Its twin-cam hemispherical-chamber head was a dramatic advance for British production cars. Exotic cars all, the XK-series of sports Jaguars are among the world's most glamorous. Rare photos from the Ludvigsen Library trace their history on road and track and give an intimate portrait of the sports cars that raised the bar for Jaguar's opposition and cemented the company's reputation for fast, stylish cars that were also remarkably affordable.

Edexcel Psychology for A Level Year 1 and AS: Student Book-Cara Flanagan 2018

Ferrari Fever-Marc Sonnery 2014-01-31 Ferrari Fever is a fascinating and nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg s story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars -from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GTO, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn t exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul s passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn t even give away his 250 GTO at the time!
